

# SPT-EL MULTIMODE ADAPTER

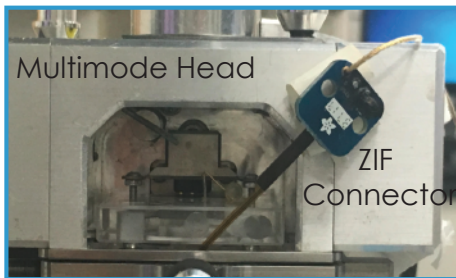

SPT-EL on a multimode liquid cell

SPT-EL

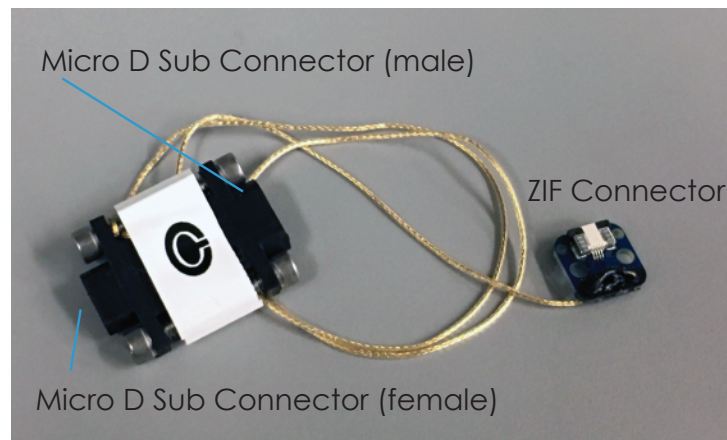

Multimode Liquid Cell

Multimode Head

ZIF Connector

Scuba Probe Technologies offers simple and custom solutions for a variety of electrical AFM measurements. The SPT-EL Multimode Adapter is designed to provide reliable, leak-free electrical connections in liquid. It directly routes the tip signal to the Nanoscope controller without modifying the functionality of the microscope. The tip bias may be set using the microscope software. Applications include high resolution current mapping and potential/current spectroscopy.

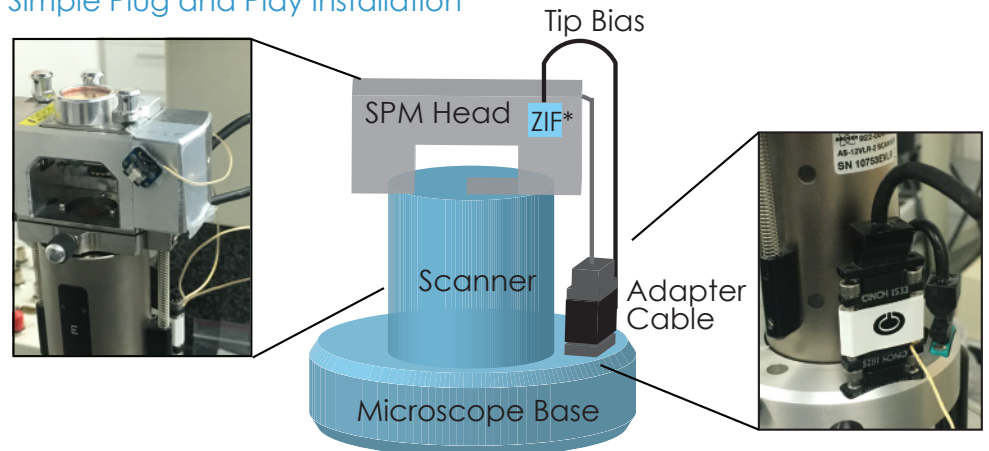

Micro D Sub Connector (male)

ZIF Connector

Micro D Sub Connector (female)

## Simple Plug and Play Installation

\*Positioning of the ZIF connector is flexible.

## Ordering Information

### Part Number

SPT-MM Adapter

Solutions for other AFMs are available. Please contact us at [sales@scubaprobe.com](mailto:sales@scubaprobe.com) for more information.
